# [Solved] Where can I get documentation?
Posted by shrockfab - 2010/08/04 19:43

_____

Hi all,

I just purchased the ARI Sexy Lightbox in order to use it as a plugin.

I was very disappointed when I found that there was no documentation bundled with the software.

The module is fairly strait-forward to setup, but where can I find information on the plugin command syntax?  :S

Arg, I should have looked around farther!  The full documentation is under the "System - ARI Sexy Lightbox Anywhere" plugin configuration dialog.  I still wish that they would bundle documentation separately, but this works for now!

Hello,

Documentation about usage of the plugins and the module can be found in 'Description' field in module and plugins settings pages. If you have any questions feel free to ask them.

PS: We'll create documentation in PDF format too.

Regards,
ARI Soft

Is that PDF ready yet and if so, is there a link handy?

Thanks

No, it will be available for "ARI Sexy Lightbox" v. 2.0. Currently all documentation can be found in "Description" field on plugin or module settings page. If it is necessary, we can send documentation in HTML format.

Regards,
ARI Soft
