Lightbox in article
Posted by ilbadile - 2017/11/02 13:46

_____

Hello
I bought the Ari Smart component license some time ago for other application , now i need to use a sexylightbox .
How I do insert an image store in Joomla local directory "Ex. image/pippo/pippo.jpg" into an article and when I click in the small format i will take a lightbox effect?

What is the correct syntax, can you give me an example?
Regards
Marco

_____

Hello,

Documentation is available here. For example use the following plugin code:

{sexybox url="images/myimage.jpg"}Show image{/sexybox}

Regards,
ARI Soft

_____

Thank's it work !!

Is possible replace the word "Show image" whit a same lite image thumbs format like preview ?
If yes how to do ?
Regards

We can't reproduce the problem. Checked it in Google Chrome v. 61.0.3163.100 (Official Build) (64-bit) on macOS:
