## Sexy Lightbox and PHP 8.0 Not working

Posted by afrestrepom - 2021/09/28 15:07

---

Hello, an error occurs when working the extension with PHP 8,

PHP Fatal error: Array and string offset access syntax with curly braces is no longer supported in / home / hlconsu / public\_html / plugins / content / arisexylightboxlite / arisexylightboxlite / kernel / Web / JSON / JSON.php on line 298

Are you planning to update the extension for PHP 8?

Regards

=====

---

Hello,

We are going to retire some extensions (including "Sexy Lightbox") and invest our efforts to upgrade "ARI Magnific Popup" (it is also lightbox extension).

Regards,  
ARI Soft
