
Link in lightbox title

Posted by eznet - 2010/09/22 08:30

I opened my super activity module in sexylightbox but I don't know how can I do the title of lightbox linkable to superactivity component ... my code is:

```
{arisexylightbox activeType="module" width="900" height="600" id="118" url="link to superactivity component" title="Full activity"}{link}/{/link}/{/arisexylightbox}
```

And second, do you have any idea how can I use sexylightbox instead of old fashioned lightbox popup in community builder profile gallery ???

Thanks a lot, your extension is fantastic.

I bought this extension again today. Can you answer my questions?
Thanks.

Hello,

1. Use the following code:

{arisexylightbox activeType="module" width="900" height="600" id="118"}{link}/{link}{title}ARI Soft{/title}/{/arisexylightbox}

2. Could you provide link to page where we can see "old fashioned lightbox popup"?

Regards,
ARI Soft
