
Problem to load skin

Posted by alexmartin - 2010/10/06 21:35

I am using HDFLV video player with sexy lightbox.

The only problem i have at this moment is that player have a problem to load swf skin for the player.

Could you help please to let Ari sexy lighbox to be able to load that swf skin file?

I tryed a few versions of your code in HTML, Module and plugin and the problem is the same.
