
Open article in lightbox

Posted by zator79 - 2010/10/16 23:38

Hi,

I created several articles and assigned them to one Category. I then created a menu link that displays all those articles in a Category Layout, so they are shown as a list. How do I set Ari Sexy Lightbox to open each article from the list in a lightbox when I click it, instead of jumping to another page?

Please help.

Hello,

Could you provide link to page where we can see these articles?

Regards,
ARI Soft

Hi Guys,

I have just sent you a link to the test page. Please check your email.

Brilliant!!! Works like a charm.

Thank you again. You guys really are the best.

I was just wondering the same thing and found this thread.

I know the code `{arisexylightbox activeType="article" width="300" height="250" id="97" link="Show article" title="Article"}/{/arisexylightbox}`

however how do I use an image instead of a text link?

Re:Open article in lightbox

Hello,

Use the next code:

```
{arisexylightbox activeType="article" width="300" height="250" id="97" title="Article"}/{/arisexylightbox}
```

Where LINK_TO_IMAGE is link to necessary image.

Regards,
ARI Soft

Thanks. The image shows up, doesn't do anything. Looking at the page source there is only the code for the image, no linking.

All ari plug ins are enabled

Try now please.

PS: We have set plugin order number to "-1" for "ARI Sexy Thumbnails" plugin.

Regards,
ARI Soft
