
Lightbox doesn't work after update

Posted by DanielSw2 - 2010/10/24 15:04

hey there,
yesterday i've updated our lightbox, since yesterday our lightbox doesn't work. When you click on an image no lightbox appears.
On your demo page the lightbox doesn't work too.

Hello,

Thank you for your report. Download and upgrade 'ARI Sexy Lightbox' module. It should help.

Regards,
ARI Soft
