
Scroll bars don't show up on iPhone

Posted by ghuber - 2011/12/27 12:16

When I open an external website with Colorbox the scroll bars don't appear at the iPhone and I can't scroll down in the lightbox. Only the whole page including the lightbox scrolls down.

How can I make it work? Is it possible that mobile devices open the link in a new window?

Thanks

=====

Hello,

Sorry, but the extension doesn't support this ability. We will try to add compatibility with mobile devices in a future release.

Regards,
ARI Soft
