## CSS?

Posted by Marsm - 2018/02/02 13:35

---

Hi,

I have the problem AriColorbox is looking different on my demo site then on my normal site. But both have the same settings.

My normal site is how I want it to be, see attach.

My demo site see: [click here](#) en [click the orange/black note icon](#). You can see the grey border.

What to do to make the demo version the same as the image attached. Is it css?

Regards,

Marsm [http://www.ari-soft.com/images/fbfiles/images/Screenshot\\_2018\\_2\\_2\\_VirtueleLesruimte.png](http://www.ari-soft.com/images/fbfiles/images/Screenshot_2018_2_2_VirtueleLesruimte.png)

Hello,

/media/modals/css/bootstrap.min.css CSS file contains custom CSS rules for color box which cause the problem. For example the following CSS rule:

```
#cboxTitle{border-bottom:1px solid #eee;position:absolute;top:0;left:0;right:0;margin:0;padding:9px 25px 9px 15px;color:inherit;text-align:left;text-rendering:optimizelegibility;font-size:20px;line-height:24px;font-weight:700;min-height:24px}
```

Regards,

ARI Soft
