
Missing parameter \"loop\"

Posted by ghuber - 2010/09/10 19:32

I didn't find the possibility to stop the slideshow after the last image. I'm missing the parameter "loop" in the plugin/module configuration.

Hello,

Thank you for your report. We have updated the extension and now it provides possibility to set 'Loop' parameter. Download extension package and upgrade module and plugins, please.

Regards,
ARI Soft
