
lightbox will not expand

Posted by stewstew - 2011/03/16 05:07

i am trying to expand the light box to match the player size. no matter how much i increase the width, it will not get any wider than the following image attached. How do i increase it to match the player size?

```
{ariprettyphoto activeType="module" width="800" height="500" id="116" link="TEST" title="TEST"}{/ariprettyphoto}
http://www.ari-soft.com/images/fbfiles/images/Capture22.JPG
```

Hello,

Use the next code:

```
{ariprettyphoto activeType="module" opt_width="800" opt_height="500" id="116" link="TEST"
title="TEST"}{/ariprettyphoto}
```

Specify please do you want to add permanent icon (for all lightbox instances) or show it (different icons) for specific items?

You can use HTML code in title. Something like this:

Where LINK_TO_ICON is link to icon.

ok here is my syntax:

```
{ariprettyphoto activeType="module" opt_width="500" opt_height="700" id="116" link="Tutorial - Learn how to complete the 12 steps of a Deal Design" title="TUTORIAL <br/>NOTE: Best viewed in Full Screen. Click the lower right icon of the video to expand."}/ariprettyphoto}
```

it just displayed the syntax on the site and not the link to the lightbox.

Use the next code:

```
{ariprettyphoto activeType="module" opt_width="500" opt_height="700" id="116"}  
{title}TUTORIAL NOTE: Best viewed in Full Screen. Click the lower right icon of the video to expand.{/title}  
{link}Tutorial - Learn how to complete the 12 steps of a Deal Design{/link}  
{/ariprettyphoto}
```
