
changing color popup window

Posted by eliecer - 2011/07/02 02:00

Hi,

I don't wanna use white as a color in the frame of the popup window. Where can I change that color?

Hello,

The extension supports 6 themes and you can choose any of them in module or plugin settings with help "Theme" parameter. If necessary to change color in predefined theme, it requires to modify theme image file(s) or create new theme.

Regards,
ARI Soft
