## Gallery width x height

Posted by Dykeman - 2011/12/14 19:33

---

How can I change the height and width of a gallery, using mod\_ariprettyphoto? The image always fit the screen resolution. How to set the gallery size to 300 x 200, for example?. I'm afraid it may be some kind of conflict, because grayscale thumbnails and other features are not working. Can you help me?

The URL: [http://nfepress.com/desenv/profissional/index.php?option=com\\_content&view=article&id=84&Itemid=91](http://nfepress.com/desenv/profissional/index.php?option=com_content&view=article&id=84&Itemid=91)

Thanks.
