
Problem after Migration from J1.5 to 2.5

Posted by eraz - 2012/04/21 17:43

I have migrated my site from 1.5 to 2.5. I'm having a little problem with pretty links. I'm using the rel tag "prettyPhoto" to open linked Photos inside of an article in lightbox, but this does only work in the article "Sri Lanka". It does not work in the other ones and i can't see where the failure is, cause all of the linked photos inside of the articles have definitely "prettyPhoto" set.

See here: <http://www.spotcatch.net/jupgrade/reiseberichte.html>

Hello,

It can be a problem with a 3rd party extension, could you provide a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

Try now. "System - ARI Pretty Photo" plugin was not installed.
