
Some king of separeted texual guide?

Posted by eleclipse - 2013/02/05 16:52

Hello,

I'm in need to use the plug-in once again after a long time, is there any texual guide?

Not the one integrated in the plug-in (which is pretty much uncomfortable to use havint all sort of notion in many different places)

Thanks in advance for any help.

Hello,

Currently documentation only available in "Description" section on plugin settings page.

Regards,
ARI Soft
