
Responsive Gallery

Posted by myl3s - 2013/03/14 10:55

Hi, Thanks for the extension and even more for the continued great support!

Which file would I modify to make the gallery display more responsive (ie css float instead of tables)?

I have a responsive template, but the galleries do not re-size, they just display fixed/full-size.

Thanks in advance!

Hello,

See \modules\mod_ariprettyphoto\includes\kernel\PrettyPhoto\Models\Templates\class.SimpleGalleryTemplate.php file.

Regards,
ARI Soft
