
CSV file does not show titles

Posted by krentzis - 2013/05/24 07:12

Hello,

I have placed this CSV file named 40xronia.csv into the directory with the images and the titles are not shown.

The file is saved as UTF8 without BOM.

I have stated the file in Description file

what I am doing wrong ?

thanks

Kostas <http://www.ari-soft.com/images/fbfiles/files/40xronia.txt>

Hello,

The first row should contain headers:

"File", "Title"

CSV file should look like:

"File", "Title"

"image_01.jpg", "Title 01"

"image_02.jpg", "Title 02"

Regards,
ARI Soft

Hello,

I have changed the file to the one attached.

Still I dont see the titles.

can you please see it again?

thanks <http://www.ari-soft.com/images/fbfiles/files/40xronia-fc98d706edab9b838df6e4d089200ebc.txt>

Hello,

Could you provide a link to a page where we can see the problem and plugin code which you use (if you use the plugin) and screenshots of plugin settings page or if you use the module, screenshots of module settings page by email?

Regards,
ARI Soft

thanks it works now.

only one thing. If it can display the titles only in lightbox...because the titles are a bit big and they spoil the format of the gallery.

thanks

Re:CSV file does not show titles

Add the following CSS rule to a site template CSS file:

```
DIV.apretty-title
{
display: none;
}
```

Regards,
ARI Soft

Hello,

I have the same problem that the titles for each photo are not shown. The file is coded UTF 8 without bom, the file has "File", "Title" on top and is .csv. I have two files because it is a homepage with 2 languages. With other galleries it works, but not with the pretty photo. Unfortunately I don't know in which of the template css files I shall add the DIV.apretty-title { display: none; }. The title is only shown on the one thumbnail which is placed.

Here is the link to the particular page.

Can you help me please? Thanks in advance!

Hello,

Could you provide a temporary access to your J! backend by email so we can check extension's settings and investigate the problem?

Regards,
AIR Soft

The lightbox shows content which is defined in "Description" column in CSV file. Values form "Title" column is used to show titles in gallery for thumbnails.
