Will this show a gallery within an article?
Posted by ppetree - 2014/05/06 21:23
_____

Every month we host an event and photos get taken. We then post those photos as part of a newsletter.

Right now the photos are in tables at the bottom of the article.

What we want to do is display the photos in a slideshow or as a gallery like this.

Will this work from within an article and can you have one of these in every single article?

Write now there are 50 newsletters so 50 articles.

Thanks,

P.

_____

Hello,

It is possible to embed image gallery into an article with help of "System - ARI Pretty Photo Anywhere" plugin from "ARI Pretty Photo" package. Demo is here.

For example if you want to show images from /photos/album1 folder, code will look like:

{ariprettyphoto activeType="imglist" dir="photos/album1" thumbWidth="100"}{/ariprettyphoto}

Regards,
ARI Soft

_____

Is there step by step instructions on using this anywhere?

I've purchased, downloaded on to my pc, installed the 'ARI Pretty Photo' module, the 'System - ARI Pretty Photo Anywhere' plugin and the 'System - ARI Pretty Photo' plugin using plg_system_ariprettyphoto.zip file if you want to use 'ARI Pretty Photo' on any pages. One note, it requires little HTML knowledge.

I did not create any modules or anything else.

I embedded the plugin like this:
{ariprettyphoto activeType="imglist" dir="past-events/event-01-18-12/" thumbWidth="100"}{/ariprettyphoto}

I get these errors:
Webpage error details

Could you provide a link to a page where we can see the problem? It seems a javascript conflict occurs.

Regards,
ARI Soft

_____

Disable "System - ARI Pretty Photo" plugin, open "System - ARI Pretty Photo Anywhere" plugin settings page, check that "Include jQuery" parameter is set to "Yes" and re-save plugin settings (re-save it is in any case even if the parameter was set to "Yes").
