Different thumbnails for each image

Posted by jimpluss - 2015/09/17 17:50

_____

Hi

How to show different thumbnails for that particular image when window pop ups (like product view)
Any help please. http://www.ari-soft.com/images/fbfiles/images/pdp_swatches.png

_____

Hello,

Do you want to show thumbnails for images from the selected folder(s) like on demo page? Do you use the module or
"System - ARI Pretty Photo Anywhere" plugin?

Regards,
ARI Soft

_____

I'm using ARI PrettyPhoto module in joomla

there is different images with descriptions and by clicking on each of them I need to show image and additional thumbs
(images) related to that image.

_____

It seems you use "System - ARI Pretty Photo" plugin. You can use the following HTML code for additional images:

_____

still not working

now it shows two same thumbs of that image

_____

Yes, i fix that, thanks

the only think left is, if you noticed it shows last thumb first and in order to see first one, you have to scroll left...

_____

check for example LOT #26 and no matter if I change places in code, it starts from last
