
Video Player

Posted by alidan - 2010/10/06 07:16

Dear Sir,

How can I show Youtube or dailymotion videos in my articles. is it possible to show video thumbnail?

Regards

Hello,

The following code can be used for inserting YouTube video:

```
{ariprettyphoto activeType="rcontent" width="300" height="250"
url="http://www.youtube.com/watch?v=qqXi8WmQ_WM" title="Video"}Show
YouTube video{/ariprettyphoto}
```

and the next code can be used for inserting DailyMotion video:

```
{ariprettyphoto activeType="rcontent" width="480" height="360"
url="http://www.dailymotion.com/swf/video/x09xb_blacklion-ayy-makasy-ile-fidan-ayyl_lifestyle?additionalInfos=0"
title="Video"}Show DailyMotion video{/ariprettyphoto}
```

If you want to show image instead of link text you can use HTML tag:

```
{ariprettyphoto activeType="rcontent" width="300" height="250"
url="http://www.youtube.com/watch?v=qqXi8WmQ_WM" title="Video"}{/ariprettyphoto}
```

Regards,

ARI Soft
