
link on image

Posted by artdirector_1 - 2011/04/08 17:59

Hi!

I 'm using fancybox to display a flickr set.

It would be great if it was possible to introduce a link after clicking on a thumbnail when the large image comes up (the link would be next to the name of the picture opened).

Is that possible?

thanks!

Hello,

Do you want to show download link for opened large image or you mean something another?

I mean a button with a link to another address or even a facebook share button.

Overall I was wondering if is possible to implement some script on the page where the large image is displayed.

E.g.:

```
function fbs_click()
{u=location.href;t=document.title;window.open('http://www.facebook.com/sharer.php?u='+encodeURIComponent(u)+'&t='+encodeURIComponent(t),'sharer','toolbar=0,status=0,width=626,height=436');return false;}Share on Facebook
```

thanks!

The extension doesn't provide this ability.
