Alt tag \\ description - SEO
Posted by shirdesign - 2012/01/17 12:01
_____

Hi,

I am using ARI Fancybox Anywhere to put an image gallery in my articles.

I would like to add a description or alt tag for seo (not to be shown as a caption but only when the user hovers the image) also for the thumb but also for the images inside the gallery - can this be done? maybe by putting another xml file / by taking the alt from the name of the image?

I am using this syntax:
{arifancybox activeType="imglist" dir="images/gallery/packege/1" thumbWidth="180"
thumbPath="thumb/1.jpg"}{/arifancybox}

thanks.

Shirat

Hello,

It is possible to define titles for images in a CSV file. Title will be used as "alt" tag for thumbnail images.

Regards,
ARI Soft

_____

where can I find the cvs file/ instractions how to apply it to the code?

and where do I add the alt tag for the thumb?

Thanks again :unsure:

_____

Open "ARI Fancybox" module settings page please. It contains a link to a sample CSV file and instructions how to use it in "Description" field. A CSV file looks like:

"File","Title"
"image01.jpg","1st image"
"image02.jpg","2nd image"

and it should be located in a folder with images. "alt" tag will be added automatically to thumbnails.

Regards,
ARI Soft

I have tried adding the "Title" to the .csv file and it shows up underneath the thumbnails- I only want it for SEO purposes, under the thumbnails. I have tried to disable the title being visible in the module settings but it didn't work.

Here is a link to one of the pages that I am working on.

Sorry I thought I was posting this in ARIprettyPhoto forum...
