
Lightbox not showing

Posted by steacha - 2012/07/12 01:41

I am not sure if this is a JQuery conflict, but I am running Joomla 2.5.6 and the ARI Smart Content component.

I have the following code in a Custom HTML module:

```
function pop(form) {  
    alert("About to show fancybox!");  
    {arjifancybox url="http://www.google.com" title="Google"}  
    Show google site  
    {/arjifancybox}  
}
```

When I click submit, the JavaScript alert shows up just fine, but then nothing happens and no fancy box appears.

Please advise.
