
Hiding articles header...

Posted by kokoro - 2013/05/09 00:50

I'm having some trouble with the popup displaying the header "articles" at the top of the popup (see screenshot) and I cannot figure out anywhere in Joomla or Fancybox how to hide this. Can you help at all? <http://www.ari-soft.com/images/fbfiles/images/ariart.jpg>

Hello,

This is Joomla! issue. Open /language/en-GB/en-GB.ini language file, find the following line:

JGLOBAL_ARTICLES="Articles"

and replace it with the following one:

JGLOBAL_ARTICLES=" "

Regards,
