
Nested fancybox-windows and back-button

Posted by casual - 2013/08/20 23:15

Hi!

1. I making website on a localhost. I use the Fancybox as a pop-up window with the description of the good. There are pictures in descriptions. How can i use Fancybox-gallery for this pictures too?

2. How to make back-button in gallery? The user must go back to the description of the goods.

Thanx!

Hello,

1 and 2. Could you provide image(s) where we can see what do you want to achieve?

Regards,
ARI Soft

1. Do you load a remote page with description and images into the lightbox and want to load an image from a remote page into the same lightbox when a user clicks by this image?

2. Do you mean close button (which will close the lightbox) under "back" button?

Regards,
ARI Soft

1. Yes

2. I would approach any decision in which the user was able to close the gallery and return to the previous page (lightbox).

1. The extension doesn't support this ability.
2. When lightbox is closed, the page from it was called will be available in main browser window.

Could you provide a link to a sample page where we can see it?

Regards,
ARI Soft

Links from a remote page which is shown into the lightbox will be shown into the lightbox.

Regards,
ARI Soft

Sorry.

Suppose I follow the link from one lightbox to another one. How can I create "back" button in order to go back to the previous lightbox? Is it expensive?

You can use the following HTML code in pages which are loaded into the lightbox to add "Back" button:

Back
