One image link to reveal gallery

Posted by stuartb - 2014/02/26 12:12

_____

Hello. Is it possible to display one thumbnail or text link on a page which, when clicked, will then show the first of a whole image gallery which you can browse using the next/previous arrows?

_____

Hello,

If you use "ARI Fancybox" module and show images from folder(s) on your server, set "Choose type -> Image gallery -> Layout type" parameter to "Custom text" value and enter a text or a HTML code for an image (it will looks like where LINK_TO_IMAGE is a link to an image) in "Custom text -> Template" parameter.

Regards,
ARI Soft
