Fancybox to external content, need image as link
Posted by Hemiek - 2014/03/22 13:40
_____

Hello,

Iâ€™m using Fancybox to display external content.

When I use some text to link, it works fine. But I want to use a picture (jpg) as a link. Canâ€™t get it working.

How do I solve this problem?

Thnx in advance.

Henk

_____

Hello,

What code do you use?

Regards,
ARI Soft

_____

Hi,

This is de link to the website page: http://www.margreetdavelaar.nl/index.php/demos

The code I used for the first link (Cereal) is:

{arifancybox activeType="rcontent" opt_width="450" opt_height="125"
url="http://w.soundcloud.com/player/?url=https%3A//api.soundcloud.com/tracks/133540271" link="Cereal"
title="Google"}{/arifancybox}

_____

The code doesn't contain a link to an image.

_____

I've showed you the code that works correct.

The code I created for the a picture as a link is this:

{arifancybox activeType="rcontent" opt_width="450" opt_height="125"}{link}{/link}{/arifancybox}

_____

The correct code is:

{arifancybox activeType="rcontent" opt_width="450" opt_height="125"
url="http://w.soundcloud.com/player/?url=https%3A//api.soundcloud.com/tracks/133540271"}{/arifancybox}

_____

I've inserted your code in the webpage, but still doesn't work correct. Actualy it only shows the code as you can see.

Some more information:

The used picture is in te correct (sub-)folder: http://www.margreetdavelaar.nl/images/knoppen/knopcereal.jpg

The Pluginns are all enabled (see attached screenshot)

_____

Switch WYSIWYG editor to plain text mode and then enter the plugin code.

Thats it: problem solved.

Thnx for your support! Great job!

Grtz,

Henk
