Flickr hosting with a local CSV file?

Posted by WINEMAN - 2010/09/07 01:11

_____

We're probably just going to host pictures on our local site but we were also considering hosting the pics on Flickr.
Is it possible to set a local CSV file to set Title, Description, and other tags for a Flickr gallery? Just curious.

_____

Hello,

No, CSV files can be used only for local images.

Regards,
ARI Soft
