
FancyBox anywhere plugin?

Posted by wcough - 2010/11/02 09:29

I Had purchased the ari smartcontent image package...

I could not load content or links with a fancybox,, been reading that I may need the fancybox anywhere plugin. Is this plugin part of this package. can't seem to locate it.

BTW activated new temp license= works fine

Thanks for the help :huh:

Hello,

ARI Smart Content: Image Pack and ARI Fancybox are two different extension. They are only use the same jQuery lightbox plugin called Fancybox. Could you explain what problem you with loading link and content with ARI JFancybox plugin from "ARI Smart Content: Image Pack"? Probably you can provide link to page where we can see the problem?

Regards,
ARI Soft

Sorry localhost only for now.

One of the issues I have been having is instead of the link site loading into fancybox, it would just load to the complete page.

I decided to download and reinstall the smart content plugin in case that was issue.

Now a lightbox opens the link but not to where I liked, showing the title etc.

But I'm sure it's coding.

So now I'm further than before

Thanks

Could you provide code what you use and check javascript error log? If you use FireFox browser press Ctrl+Shift+J that see error log.

Regards,
ARI Soft

Could you specify what code you use? When we use the following code, external site loads into lightbox without problems:

```
{arijfancybox url="http://www.google.com" title="Google!"}  
  Show Google! site  
/arijfancybox}
```
