Images not showing in IE
Posted by natibel - 2011/08/03 12:16

_____

Hi guys, how're you doing?

I'm using the Ari Image Slideshow in this site: http://www.natiluca.com.br/novosite/natiluca/, but when using IE the images doesn't show just in the Home page.

Chrome and Firefox are working fine.

I search for this solution in the forum but I don't find it.

Thanks guys!

_____

Hello,

This problem with module in "right_banner" and "banner_marcas" positions.

Regards,
ARI Soft

It works!

Thanks a lot man. This module is great.
