Slideshow Plugin

Posted by EmediaAssoc - 2011/10/04 14:04
_____

I recently purchased ARI Image Slideshow. And, it works great in the module position. However, I also need to embed it in an article. And, I simply can't find any documentation on how to do this. In the product description, it says:

Can display module in Joomla! articles with help ARI Image Slide Show plugin;

However, I can't seem to find this plugin anywhere on the site, or any information within the module about this.

Please assist,

Thanks,

Gene Crawford

Hello,

Extension's archive container "Content - ARI Image SlideShow" plugin (plg_content_arislideshow.zip). The plugin can load "ARI Image SlideShow" module into an article. Information how to use the plugin can be found in "Description" field on plugin settings page or you can use "Content - Load Module" standard Joomla! plugin. More information about it can be found here.

Regards,
ARI Soft

Ok, I followed the instructions on your post for using "Content - Load Module" standard Joomla, and it did not work. Also, when I went to the sample page, it said the directions were for 1.5, while I am running 1.7.

You mentioned "Extension's archive container "Content - ARI Image SlideShow" plugin (plg_content_arislideshow.zip". This option is not loaded in my plugin menu. How do I get that? This is 1.7 compatible, right? Pretty certain I saw that on the joomla extentions page.

Thanks,

Gene

_____

Joomla! 1.5, 1.6 and 1.7 contains "Content - Load Module" plugin.

PS: Provide your order number by email please.

Regards,
ARI Soft

_____

Turns out it was a Joomla issue. A simple patch corrected the problem.

Thanks for the quick response,

Gene
