two questions

_____

guys,

I had the following two questions:

1. I am trying to have a logo on the left hand side and the slide shower on the right hand side. is that possible?

2. Finally I got the slide show working. However, the pictures are so small that they do not fit/fill the full space for the slider. What has gone wrong here?

thanks,

naveen

_____

Hello,

Where we can see a slider? Could you provide screenshot(s) of module settings page?

_____

1. Sorry, but what logo you mean?

2. Set "Use thumbnails" parameter to "No".

Sorry, with logo I meant the "Arya Prathinidhi Sabha" in orange. Not much of a logo Iknow. But it will be replaced and so there will be a whit space I want to minimize.

thanks,

_____

I set it to no and it now fills it up. How to make the pictures so that you can see the full pictures?

thanks,

_____

Now the slider shows original images, not thumbnails. Could you explain what's wrong?

About logo, you can modify site template and add a module position near logo and use it for the slider.
