
not sure if i have to many java scripts loading?

Posted by tigs - 2012/09/21 09:12

I'm not sure if I have to many java scripts running and i am not able to change the timing of the slide transitions as well as getting banding when the fades happen. any help gratefully revived.

Hello,

Provide a link to a page where we can see the problem.

Regards,
ARI Soft

We don't see any javascript errors on the page:

I cant find a reason why the fade seems to be not appearing on fading but appearing in a blocky way. do you have an ideas please.

About black background, add the following CSS rules to a site template CSS file:

```
TABLE.ari_slideshow
{
border-width: 0;
}
TABLE.ari_slideshow TR TD.slideshowContent DIV DIV
{
background-color: white !important;
}
```

About problem with transition effect, could you describe in more details what do you want to achieve?

Regards,
ARI Soft
