Getting the module to align centered

Posted by weidemannf - 2013/04/05 16:03

_____

I am using Image slideshow in a module position, I am trying to get the slide show to align centered in the "left" position. I can not seem to find the best way to do that. I attempted to do it by creating a new 'theme' but I can not find out where to tell it to center itself. http://www.grace-fellowship.net

_____

Hello,

This problem with site template styles. Add the following CSS rules to a site template CSS file to fix the problem:

.ari_slideshow_pane,
.ari_slideshow_container
{
 padding: 0 !important;
}

Regards,
ARI Soft
