
Ken Burns type transitions?

Posted by rowby - 2013/09/14 15:04

Hi

I am looking for a slideshow that is responsive and will work with JOomla 3.1 and has "Ken Burns" (pan and zoom) effects. Using Joomla bootstrap, if that helps.

Does ARI Image Slideshow have that capability, or do you have another one that does that?

Thanks!

Rowby

Hello,

Sorry, but we don't have an extension with "Ken Burns" effect.

Regards,
ARI Soft
