Image slideshow integration with sexy lightbox

Posted by dgallen - 2013/10/29 04:09

_____

I have installed and enabled both image slideshow and sexy lightbox mod+plugin.

I have the lightbox setting in imageslideshow set to sexy lightbox

I am trying to use this to have a light box appear when a slide is clicked on but I have had no success.

The site is dgallenphd.com

_____

Hello,

Set "Default link" parameter in "ARI Image Slider" module settings to {$originalImage} value.

Regards,
ARI Soft
