## Multiple sliders

Hello

Thank for your advice, but :

I have already followed the given way for the images address of each of the sliders :

Slider 1 : images/mes\_images

Slider 2 : images/mes\_images/arevoir

Slider 3 : images/mes\_images/Chandeleur

Slider 4 : images/mes\_images/sorties

The result :

Slider 1 : OK (images are in "images/mes\_images/cyril", and when I put the adress to "images/mes\_images/cyril", I got same result as slider 2 and 3!)

Slider 2 : slides ok but syntax error message above (see image of the message)

Slider 3 : slides ok but syntax error message above

Slider 4 : OK

Looks strange to me...

Any suggestion ?

Hello,

This is a problem with content in INI file. Send a link to a page where we can see the problem or INI file which causes the problem.

Regards,

ARI Soft
