

alt & description im image slider

Posted by kuckbert - 2014/12/28 22:26

i put an ini (ariimageslider.ini) file in the directory where the images are.
i tried everything on a reserve server. till three pictures the title tags worked, with the fourth picture nothing worked anymore.
is the description file limited to only a few pictures or where is my mistake?
here is what i would like to get working:

Schuetze-Druskininkai2.jpg=Druskininkai Kurort Litauen
Pakruojis_Header3.jpg=Pakruojis Herrenhaus

Hello,

Values should be quoted with " symbol. For example:

Schuetze-Druskininkai2.jpg="Druskininkai Kurort Litauen"
Pakruojis_Header3.jpg="Pakruojis Herrenhaus"

thanks for your help.

i tried with or without marks.

when i have only four pictures in the description, then it works. one more it will not work anymore and the pictures in the slider have no title. also this difference you see in the sidequelltext. with four pictures in the description you see a change in the quelltext. i add one more, the quelltext is again like there is no description at all. don't know and understand the difference.

this works:

Schuetze-Druskininkai2.jpg="Druskininkai Kurort Litauen"
Pakruojis_Header3.jpg="Pakruojis Herrenhaus"
ANP1.jpg="Aukstaitija Nationalpark Ladakalnis"
Birzai_Schloss.jpg="Birzai Schloss und Burg"

Schuetze-Druskininkai2.jpg="http://www.alles-ueber-litauen.de"
Pakruojis_Header3.jpg="http://www.alles-ueber-litauen.de"
ANP1.jpg="http://www.alles-ueber-litauen.de"
Birzai_Schloss.jpg="http://www.alles-ueber-litauen.de"

Schuetze-Druskininkai2.jpg="Druskininkai"
Pakruojis_Header3.jpg="Pakruojis"
ANP1.jpg="Aukstaitija"
Birzai_Schloss.jpg="Birzai"

this not:

Schuetze-Druskininkai2.jpg="Druskininkai Kurort Litauen"
Pakruojis_Header3.jpg="Pakruojis Herrenhaus"
ANP1.jpg="Aukstaitija Nationalpark Ladakalnis"

Birzai_Schloss.jpg="Birzai Schloss und Burg"
Haus-Druskininkai.jpg="Kurort Druskininkai Litauen"
Klaipeda.jpg
="Klaipeda Memel Hafenstadt am Haff"
Knygos_Vilnius.jpg="Vilnius Juedische Altstadt"
Landgut-Pakruojis.jpg="Herrenhaus Landgut Pakruojis"

Nida.jpg
="Nida"
Rumsiskes.jpg="Rumsiskes"
Rundale.jpg
="Rundale"
Schaschlikas.jpg="Litauen"
Vilnius_Kathedrale.jpg
="Vilnius"

maybe someone have an idea?

thanks

when i ad all picture descriptions, the quelltext looks like this:

=====

finally the problem is solved. i had to ad in the ini file under link not only the website, but specify the directory, whre the images are in.

not:

Pakruojis_Header3.jpg="www.alles-ueber-litauen.de"

but

Pakruojis_Header3.jpg="www.alles-ueber-litauen.de/templates/bilder"

why it worked before with five pictures i have no idea. but anyway, many thanks,
andreas

Keys and values (image file name and description, link) are placed not in one line in your second sample so it doesn't work.
