Module wont save file path or other settings.
Posted by Fred Plowman - 2012/07/13 08:03

_____

Installed module 1.3.2 into Joomla 2.5 site.

Created and named module. Use file path of images/name in
additional parameters/directories.

When i save module it will not save settings. I go back and the parameters directories path is missing. It will not save my
thumbnail settings under /image gallery

I cleared cache, checked settings against other working gallery settings. Unable to find solution. Please help. :)

_____

Hello,

Check that "System - ARI Extensions" plugin is installed and enabled.

Regards,
ARI Soft
