Hello,

I've just download ARI Sexy Lightbox Lite.

I've put this code

I use it into an article!

When I click on the picture the new image appears in an other window, no like a lightbox!

I used Joomla 1.6

What's happen?

Sorry about my bad English, I'm french!

Hello,

Could you provide link to page where we can see this issue that we can investigate it? It can be a conflict with 3rd party extension.
