
doesn't work on my site...

Posted by Drew - 2011/03/11 17:42

Hi, I feel a little bit stupid now but I can't figure out why it doesn't work on my site. I copy/paste the example code and checked all the settings. It's really simple what I try to do.

Here is my code :

But, like you can see on my site - the small picture on the top of the left column (portailsi.com), it just doesn't load at all.

Any help would be appreciate

Hello,

"ARI Sexy Lightbox Lite" is Joomla! content plugin. It means that it works in Joomla! articles, but not in modules or other content. If you want to use sexy lightbox anywhere, you can be interested in ARI Sexy Lightbox extension.

Regards,
ARI Soft

Hi,
i have the same problem but i bought the complete ari sexy lightbox. I would like to use this code:

This code is working if i activate the ari sexy lightbox lite module. But if i deactivate this modul the code doesnt working. Please help me. I would like to use the lightbox for my pictures.

all plugins are installed and activated. But iam not shure if the plugins working. I Would like to use the ari sexy light box on every page and every module.

please help me. I lie the lightbox and wished to use it.

Hello,

Uninstall "ARI Sexy Lightbox Lite" and install, configure and enable "System - ARI Sexy Lightbox" plugin. We have also sent this solution by email.

Regards,
ARI Soft
