## Ari Sexy Lightbox Lite and Orbit Image Slider

Posted by Bilchez - 2011/04/20 15:40

---

Hi,

I would like to combine Orbit Image Slider and Ari Sexy Lightbox lite like you did in Orbit Image Slider Demo site. I haven't found it in the forum. Orbit is working perfectly but I don't know how to integrate Lightbox lite.

Thank you very much,  
Jose

"ARI Orbit Slider" can be integrated with ARI Sexy Lightbox, but it can't be integrated with "ARI Sexy Lightbox Lite".

Regards,  
ARI Soft
