captions

Posted by luciano991 - 2011/08/25 19:07

_____

Hi,

I've been comparing gallery extensions for joomla and I decided I really like Sexy Litebox Lite for the site I'm doing. I hate to ask a real newbie question but I need to put captions under the thumbnails and the lightbox zooms. I have seen various posts on the subject but they all assume I know more than I do. Can someone give me the very basics?

Thanks,

Luciano

_____

Hello,

Could you provide screenshot where we can see what do you want to achieve?

Regards,
ARI Soft

_____

Sure. Here is the photo album on the old site:
http://www.kagando.org/Foundation/Contact_Us/Legal/Kagando_Photo_Album/kagando_photo_album.html

Here is the photo album on the new site: http://www.kagando.org/joomla/index.php/photo-album I would like to have captions under the photos on the new site and these same captions can be used for the zooms.

Thanks,

Luciano

_____

My deepest embarrassed apologies. It turns out I'm using something called ARI Sexy Lightbox Lite. I am a dope.

I will download yours and try it. If it solves my problem I'll buy the pro version.

All the best,

Luciano

_____

ARI Sexy Lightbox can load images from specific folder(s) and provides ability to specify image titles in CSV file. The extension can also show images from Flickr and Picasa services and supports a lot of other features.

Regards,
ARI Soft

Hello.

How is this possible?

I will like to "echo" the title of the image-fil, not at title form a seperate document.

Is this possible. I have tried, but without success.

Kind regards
Vivi from Denmark.

_____

Hello,

The extension supports ability to load titles and descriptions from a CSV file. A link to a sample CSV file can be found in "Description" field on module settings page.

Regards,
ARI Soft

_____

P.S. Its the plugin I'm using.

_____

Could you specify what plugin code do you use?

Regards,
ARI Soft

_____

Yes.

I'm inserting the script for local imagefolder. I have to use the plugin because I have multiply galleries. Right now I can't provide the specific code because I'm reinstalling my joomla installation. Something wired happend when I installered your plugin :(

_____

If you use "Simple gallery" layout type, set "Image gallery -> Layout type -> Simple gallery -> Empty title" parameter to {$fileName} value in "System - ARI Sexy Lightbox Anywhere" plugin settings (or if you use "ARI Sexy Lightbox" module, in module settings).

Regards,
ARI Soft
