Ho to Remove scroll bars from lightbox

Posted by scottadam - 2011/10/29 19:37

_____

Best if i give you a link ...

I am having problems with box on this page http://oxape.com/latest-video/chelsea-football-club-video.html

Click On a video.....You will see scroll bars and on some videos(if there is a lot of text) the text is overflowing to the right of video..

I need to remove the scroll bars and show the text under the video.

Any ideas ?

Many thanks

_____

Hello,

This problem with site template styles or styles added by 3rd party extension. For example video page contains the next CSS rule:

```
.tx-container {
    width: 1300px;
}
```

It causes horizontal scroll.

Regards,
ARI Soft
