
Hide SLB Wrapper icon

Posted by shoop29 - 2012/04/16 20:50

I am using Sexy Lightbox Lite to display a zoom of a picture on my site. Click on the picture and a SLB pops up with a different image.

Here is the code I am using to do this:

Now on the page, there is a little black link at the bottom of the page. I would like for that to not show up...

<http://http://www.naturener.net/rimrock/about-rimrock/why-rim-rock>

Bottom left of page. <http://www.ari-soft.com/images/fbfiles/images/SLB.jpg>

Hello,

Disable "Content - ARI Sexy Lightbox Lite" plugin and use "System - ARI Sexy Lightbox" plugin from "ARI Sexy Lightbox" (you bought it). The plugin supports all features of "Content - ARI Sexy Lightbox Lite" plugin.

Regards,
ARI Soft
