Hello,

I would like to change the arrows for "next" and "previous" , I would like them to be on the picture itself ..to be more visible , how can achieve this ?

Thanks.

Hello,

Do you mean "ARI Sexy Lightbox" or "ARI Sexy Lightbox Lite" extension?

Themes images are stored in sub-folders in \plugins\content\arisexylightboxlite\js\sexyimages\ folder. The plugin uses \plugins\content\arisexylightboxlite\js\sexylightbox.css file. You can modify it for your needs.
