
Getting \"two\" lightboxes?

Posted by DanielP9690 - 2014/01/08 09:54

Hey, hoping someone can help me.

I seem to have a problem at the moment where when you click on a link, you get two lightboxes appear. The first one takes up the whole screen and has numbers at the bottom to skip to the next one (which is the one I want removed) and the second one is on top of the one mentioned above and is the one I want to keep. (See image)

I'm trying to link to some images that are saved locally on the server and some external games for kids and it happens with both the images and the games. I've updated to the latest version but still no joy. I used the example code (Goooooogle) for the games and I still get the same results.

Thanks

Hello,

Send a link to a page where we can see the problem.

Regards,
ARI Soft
