Chrome not displaying lightbox properly
Posted by cornelvis - 2014/02/16 22:59

_____

Hi All,

I have an issue with the SLB Lite. It's not displaying properly in Chrome.
It opens the lightbox, but it displays it at the bottom of the page instead of the middle of the screen. It's not even really the bottom of the page, it even makes it lower.

HAs this to do with a setting or is it because of the image size.

I don't have the problem in MS Internet Explorer (for a change, most of the problems are with this browser normally hahaha)

Here is the link:

http://www.cornelvis.com/index.php/blog

only the February - 16 - 2014 blog has the lighboxes on the pics.

Any help would be appricated.

Thanks in advance

Hello,

The page contains incorrect HTML code. It seems the code breaks by statistics extension (or incorrect code was added manually to a site template). You can see it if open HTML source page. The following code:

```
var sc_project=9600368;
var sc_invisible=1;
var sc_security="e88be6bf";
var scJsHost = (("https:" == document.location.protocol) ?
"https://secure." : "http://www.");
document.write("");
```

Regards,
ARI Soft

_____

Hi,

Thanks for the quick response,

that's my stat counter and I added it manually, yes.

I will take it out and see if it solves the problem, then see if I can add it somewhere else.

Thanks again.

With kind regards,

Cornelis

OK I tested it and took out the block of code and it's working straight away.

Thanks a million!

_____

Hello,

Upgrade the extension to the latest version and clean browser's cache.

Regards,
ARI Soft

How do I upgrade the Plugin? I am using the latest version of SexyLightBox

Please see http://bhattji.com/About-Us and click on any of the images in Our Experts OR Our Team

_____

Hello,

"ARI Sexy Lightbox Lite" plugin is not used on your site. "ARI Sexy Lightbox Lite" is a Joomla! plugin and works on Joomla! system, but your site is not a Joomla! site.

Regards,
ARI Soft
