
Multiple pictures in the lightbox

Posted by Lucske69 - 2014/05/21 11:43

hi, i am new at this so... how can i get multiple pictures in my lightbox? for now i have 1 but in my map i have 4 pictures. this is the link where i test it

<http://www.lm-webdesign.be/joomla/index.php/8-honden/10-darco-amerikaanse-bulldog-reu-20101>

and this is the code i use

Hello,

Your code is an incorrect. tag doesn't have singleImage and path attributes. "src" attribute is used to specify an image that will be shown.

thx, i already change it, but the question is still "how do i put multiple pictures in the lightbox"

what pad or map must i choose the get that

thx
