
Module in Lightbox

Posted by Sachin - 2015/04/30 13:45

Hi,

I am trying to use a Breezing Form module in Lightbox. The form pops up properly and I can also fill the form, but the Submit button does not work.

I tried using both {loadposition formpopup} and Breezing Form code { BreezingForms : contact } with same results.

Here is the code that I used:

```
{loadposition formpopup}  
YES! I am interested
```

Any help would be highly appreciated.

Thanks & Regards.

You can view the Lightbox on the below page ('Yes! I am interested' button) -
<http://vcl1.vebkrafts.com/index.php/products>

Hello,

It seems a javascript conflict occurs with the form. Load the form into an article and then load the article into the lightbox.

Regards,
ARI Soft
